

Upper Fraser Fisheries Conservation Alliance

Your support is precisely the kind of support critical for building Inter-tribal Treaty relationships, and will, know doubt, move the ITFT process closer to being realized; it begins to build the foundation for a truly strong, functioning, and lasting relationship.

Finally, our identity is tied to the river we are its caretakers, through mutual trust and respect, and working collaboratively as we just did, through a more traditional governance structure; we will sustain the resource for future generations. With more leaders, like you, leading by example, the process will be expedited for the benefit of all.

Many Thanks

UPPER FRASER FISHERIES CONSERVATION ALLIANCE
